

LIMB AND TREE PICKUP POLICY

The following is the City of Waterloo Tree and Limb Pickup Policy:

- The City of Waterloo will continue to provide a limb pickup program after a storm-related incident.

After a storm, residents should place limbs within 2 feet of the curb or roadside. The limbs should be placed parallel to the roadway.

After placement of the limbs, residents should contact the City of Waterloo at 939.8600 (press zero) to be included on the limb pickup list.

Limb pickup should be requested within a reasonable length of time following the storm (2 weeks).

- The City of Waterloo does not pick up tree limbs and branches that have been trimmed by the homeowner or commercial tree trimmer.

However, the City of Waterloo Yard Waste Site is available to city residents to dispose of their own tree limbs and branches. Commercial tree trimmers are prohibited from disposing of limbs and/or branches at the city's yard waste site.
