Waterloo Has Heart

April is National Volunteer Month. Each year in April, individuals and organizations across the United States celebrate National Volunteer Month to honor the important impact volunteers have in our communities, and to encourage even more people to start volunteering.

It's the perfect time to officially launch a new website: "Waterloo Has Heart". This website is a way for community organizations, church groups, and others to post opportunities for people to volunteer. To submit an opportunity to serve, you can simply visit the website and fill out the online form. We also encourage people who do volunteer to go to the site and log the hours that they serve. This information can be used on grant applications or award nominations that could result in receiving funds for community improvement projects in the future.

Thank you to Amanda Chase for developing this website for the community. We are so fortunate to have such a great community full of people willing to help others. This website is a great tool that will make it much easier for you to find ways to do so!
