

## **Street Committee Meeting**

Monday, December 19, 2022      6:00 pm    Waterloo City Hall – Second Floor

Officials Present- J. Hopkins, M. Buettner, J. Trantham, C. Heller, T. Birk, T. Smith, R. Row and S. Darter

Meeting called to order at 6:03 pm by Street Committee Chairman Jim Trantham

### **Petitions by Citizens on Non-Agenda Items – None**

**Discussion Regarding Downtown Resurfacing Project-** Tim Birk passed out the Preliminary Estimates of Design, Bidding and Construction for Downtown Resurfacing from HMG Engineers. He discussed and answered questions from the committee about using a micro seal technique or milling the roadways and applying a new hot lay asphalt covering. After discussing the different options, the committee agreed with Tim that milling the road (1.5 inches) and applying a new asphalt surface would be the best option for longevity. The estimated cost is approximately \$833,337.36. Motion made by Alderman M. Buettner/2<sup>nd</sup> by Alderman C. Heller to move forward with the milling and asphalt with committee unanimous in favor.

**Comments-** Alderman J. Hopkins asked if the city purchasing a milling machine would be feasible for the city to look into. Tim Birk advised that it is cost prohibitive for as little as the city would use it. Alderman Hopkins also commented on how bad some of the roads are in the older part of the city. Discussion followed by the committee.

Motion to adjourn the committee meeting at 6:20 p.m. by M. Buettner/2<sup>nd</sup> by C. Heller with committee unanimous.

Submitted by J. Trantham.
