**(3) Monroe County Jail Water Meter**

Shawn Kennedy explained the Monroe County Jail Water Meter has been effectively “Dead” for 1 year. They have been billed the minimum for 1,000 gallons each month.

For May/June/July their bill was estimated high to partially offset the minimum Bills they had been receiving.

This is a 3 inch meter and had to be dug up. Parts to repair the meter was estimated to be 26 weeks out and a new meter was 12 months out. The City reached out to Chester and they had a meter in stock they would loan to us.

Chris Frank disassembled the meter and found a plug caught in the meter. This occurred when a “Tap’ was made when The County had a Lawn Sprinkler System installed.

The Committee decided to estimate The County Bill for all Water/Sewer use and bring that info to the Utility Meeting for further discussion on September 13, 2021.

**(4) Comments**
