2) Water Issue – Joel Adcock was present to discuss his Water bills for the months of August and September 2019. August was 18,000 gallons and September was 30,000 gallons. He stated he could not find a leak inside his home and there was no excess water in his yard during those months. He felt the billing was in error. A New AMI Meter was installed in September and his old meter was sent to be tested. Test results indicated the Meter was registering correctly. After much discussion the Committee decided Mr. Adcock was responsible for paying for all the Water and Sewer charges but would not be charged the \$225 Fee to test his old meter. Committee also agreed to give Mr. Adcock up to 6 months (payment plan) to pay these charges. Total excess use was about \$500. Mr. Adcock agreed to pay all the charges.
